

# Upload POC Error

## Informasi Error

Error Message (Short Text) : Open SQL array insert produces **duplicate records** in the database.

Keterangan "**Duplicate Records**" mengindikasikan adanya double data dalam excel yang diupload.

Contoh kasus :

File POC [dummy.xls](#)

Dalam excel tersebut terdapat 168 baris/records/row (diluar judul). Yang mana setelah ditelusuri, bisa kita lihat bahwa setengah datanya yaitu 84 baris adalah duplikasi, kita ambil sample WBS paling atas untuk difilter.

WBS Code	Actual Start Date	Actual Finish Date	Progress Version	Year	Month	POC Actual	WBS Description
A-E0022302-1-10-90-10-10	20240301	20240331	WK2	2024		3	100 ASURANSI CAR
A-E0022302-1-10-90-10-10	20240301	20240331	WK2	2024		3	100 ASURANSI CAR

## Kesimpulan

Isian kedua Progress Version tersebut sama-sama WK2 (Progress Diakui), dan semua kolom memiliki isian yang sama. Dimana "mungkin" seharusnya baris yang pertama diisi WK1 (Progress Terpasang).

## Solusi

Hapus wbs yang duplicate jika memang hanya upload Progress Diakui, ATAU ubah kolom Progress Version untuk 84 baris lainnya menjadi WK1 jika ingin bersamaan upload Progress Terpasang, kemudian di upload.
